## NOMINATIONS

### ENGINEERING SOCIETY

*President*

R. W. ANDERSON  
C. W. TYSON

*First Vice-President*

J. A. HARLEY  
G. B. LINT  
W. S. SMITH

*Second Vice-President*

C. L. ANNIS  
D. B. BRUCE  
D. G. RITCHIE

*Treasurer*

W. R. ALEXANDER  
K. H. CLARKE  
G. A. DOWLING  
R. HEWITT  
W. A. H. LOWE

*Secretary*

W. C. IRVIN  
A. D. LEPAN

### ATHLETIC ASSOCIATION

*President*

H. K. C. McNICHOL  
H. J. WILKINSON

*Vice-President*

J. STAVERT (Accl.)

*Secretary-Treasurer*

E. R. EATON  
H. W. MASON  
E. H. SINCLAIR

*Fourth Year Representative*

No Nominations.

*Third Year Representative*

R. D. WALDEN (Accl.)

*Second Year Representative*

J. A. McARTHUR (Accl.)

### CLUB CHAIRMEN

*Architectural Club*

F. LASSERRE  
G. B. PRITCHARD  
J. C. TOWERS

*Chemical Club*

L. D. DOUGAN  
D. F. FRASER

*Civil Club*

J. P. BORPEY  
T. C. MUIR

*Debating Club*

B. I. COOPERMAN  
A. C. KING

*Electrical Club*

W. W. FARQUHAR  
L. S. LAUHLAND  
N. D. SCHELL

*Mechanical Club*

D. F. CORNISH  
W. W. FREELAND  
W. M. KELLETT

*M. and M. Club*

J. W. CARRINGTON  
H. R. F. KING

### PERMANENT EXECUTIVE 3T3

*President*

M. A. ELSON  
M. McKILLOP  
M. J. WERRY

*Vice-Presidents*

W. J. BEYNON  
F. V. C. HEWETT  
K. L. MORRIS

*Secretary-Treasurer*

A. W. M. CARMICHAEL  
W. W. WESTAWAY

*Councillors*

R. P. BAILEY  
W. D. BRITTAIN  
H. H. COOK  
R. E. HAMMOND  
H. C. HERZ  
M. A. MacKAY  
M. SAUNDERS

### Class of 3T4—Fourth Year

*President*

W. A. HIGGINS  
H. L. SHEPHERD

*Vice-President*

H. G. HILL

*Secretary-Treasurer*

G. J. JARRELL

### Class of 3T5—Third Year

*President*

E. D. GRAHAM  
J. J. HICKEY  
N. M. KELLY  
C. G. LEVY  
W. A. MOHUN

*Vice-President*

L. P. BAKER  
J. A. C. BOWEN  
R. B. DUNLOP

*Secretary-Treasurer*

J. R. BALLANTYNE  
B. H. CARVETH  
R. E. DAVEY  
A. H. SIEVERT

### Class of 3T6—Second Year

*President*

W. E. EWENS  
F. A. FLEMING  
A. E. JOHNSTONE  
R. B. McINTYRE  
K. G. ROBB

*Vice-President*

L. B. SHARPE  
W. TURRALL

*Secretary-Treasurer*

G. H. MAYNARD (Accl.)

### DEBATING CLUB

Elections mean a period of campaign speeches and attempts at speeches. There is a subtle suggestion on these occasions of a regret on the part of the candidates for not having utilized their opportunities toward better public speaking. The School Debating Club offers a worth-while training open to every Schoolman. We have had a number of enlightening arguments during the process of the Inter-Year Debates and now our main appeal is for a vigorous support in the concluding activities which involve: a final battle for the Sedgeworth shield between Fourth and Second years; a rousing dinner, and the Annual Oratorical Contest with its accompanying monetary returns. The oratorical is open to everyone no matter what his previous interest in the Club. The prizes are \$5.00 for first; \$3.00 for second and \$1.00 for third. We anticipate a good turn-out on this occasion.

The Inter-Year Finals will be run off in Hart House Debates Room, Tuesday, March 7th, at 7.30 p.m. Everyone out to carry his year through to victory.

### J. A. HARLEY FOR FIRST VICE-PRESIDENT OF THE ENGINEERING SOCIETY

This is a period when everyone is giving the closest attention to value, when nothing is done without considered judgment and when on every hand there is doubt and misgiving. In times like these, Schoolmen should take the same care in choosing men to administer the affairs of their Society that they take with their own personal affairs. Therefore with this in mind, the name of Jim Harley is suggested for Schoolmen's consideration as 1st Vice-President of the Engineering Society.

He has always taken a keen interest in the administration of the Engineering Society and its influence on undergraduate life, and for the past two years has been one of Schools representatives on the Hart House Music Committee.

## The Toike Oike

*Devoted to the interests of the Under-graduates of the Faculty of Applied Science.*

*Published Every Now and Then by the Engineering Society of the University of Toronto Since 1911*

EDITED BY D. F. FRASER, J. J. DUTTON

### EDITORIAL

Look carefully, children, at the mast head above. Notice any difference? Look carefully and carefreely—"Ah, yes, 'Founded in 1911.'" After stealthy sleuthing that master mind, the famous "Whylock Holmes" discovered that (unless lost in the great blizzard of '89) the files conclusively prove that the first edition of the Schoolman's Scandal Sheet first appeared as an Election Edition in 1911.

Additional evidence was brought to light when Mr. Holmes cornered and cross-examined the Oldest Living Freshman in the mystic confines of S15. The man responsible for that memorable edition was Mr. C. F. Elliott now living in Ottawa. A dozen orchids for Mr. Elliott!

Here endeth the first lesson.

And now for the Elections.

Which reminds us of the old familiar theme. Vote for School—for the man that you think will be the best to future the interests of the School. The other fellow may have done your labs for you but forget it—he may not be willing to do so much work when in office.

The office boy suggests the following recipe—dissolve two election cigars in a bottle of Coca-Cola. Add an aspirin and use as a gargle. Guaranteed to take your breath away. If not, try running up to the First Year draughting room four or five times.

And don't forget to vote.

### GEORGE LINT FOR FIRST VICE-PRESIDENT

On being interviewed, Mr. Lint stated that his platform was hardly worth mentioning—asked his view of technocracy he stated that a technocrat is an engineer out of work—what a man!

But seriously the Vice-President of the Engineering Society must be one with experience—particularly in conducting social functions and entertainments. As Vice-President he would be Chairman of the School Dinner and School At-Home committees. George Lint was a member of the School Nite Committee.

He was in charge of the "Musical Revue" at School Nite. No doubt

(Continued on Page 6)

### NER TYSON FOR PRESIDENT

Ner Tyson is a candidate for President of the Engineering Society. The experience he has gained in executive work should fit him for that office.

As secretary-treasurer of the First Year, Ner proved his ability as a salesman, for it was no easy task to persuade the Freshman that he should contribute his five dollars to the Year funds. The job of secretary of the Debating Club also took a good deal of attention.

The following year Ner was Secretary of the Engineering Society, and in this position he became familiar with the constitution and activities of the Society.

During the past year he has held the office of Second Vice-President. Realizing that the primary purpose of the Supply Department is to serve Schoolmen, and not to build up a large surplus for the Society, he has cut the profits to a minimum, resulting in substantial savings to the under graduates.

In athletics, Ner has had varied success as a wrestler. After three years of competition, he succeeded in winning the Junior Interfaculty title at 165 pounds, and represented Varsity in the Intermediate assault at the same weight.

On a platform of service in the best interest of Schoolmen, Ner Tyson solicits your support as President of the Engineering Society.

### STAN SMITH SAYS—"EXPERIENCE COUNTS"

In this modern age it is just one election after another. In order to have elections candidates are necessary. However, of all the elections those held at School are the liveliest, and of the candidates for "First Vice-President of the Engineering Society," Stan Smith is the right man for the position.

The very apt slogan he has selected as a foundation for a campaign platform on which he hopes to carry a sweeping victory is "Experience Counts." He has had varied experiences along the line of planning all types of social functions as a member of the committees for School Dinner, School Nite, C.O.T.C. Ball, and School At Home.

His experience in the executive side of affairs is also varied. He rose from the ranks of journalism as Assistant Editor and then Editor of TOIKE OIKE and this year held the distinguished office of "Director of Publications and Publicity" on the Engineering Society Executive.

Stan has also served as a member

(Continued on Page 6)

### ELECT BOB ANDERSON FOR SOCIETY PRESIDENT

Gentlemen of Applied Science in selecting your president for the ensuing year it is essential that the successful candidate be a man whose high integrity ability and popularity be unsurpassed by any. The man who fulfils these qualifications and without a doubt possesses the experience to successfully handle the important position of President of the Engineering Society is asking for your support. Bob Anderson has efficiently handled the office of Treasurer during the past year, a year which has proved to be one of the most difficult in the history of the Faculty. Prior to this time he was the president of the second year, and during his entire course has been intimately connected with the inner workings of the Society. The experience obtained should prove valuable in the operation, to the best advantage, of the Society's interests for 1934.

While at Parkdale Collegiate, Bob had the signal honour of being presented with the School Medal for Character, Scholarship and Leadership, and for the past four years has held the position of President of the Old Boys' Association.

Members of the class of 3T6 will recall the ability with which Bob led the singing and cheering when the year recently broadcasted on a coast-to-coast network, and the same whole-hearted enthusiasm enters into all his activities. Those who lend Bob their support in the coming elections will have the satisfaction of knowing that their ballot is being cast for a candidate whose ability, integrity, personality, and interest in the Faculty of Applied Science is of the highest order.

### INTRODUCING W. C. IRVIN AS CANDIDATE FOR SECRETARY

Having completed a year of efficient management as president of the Freshmen of 3T6, W. C. Irvin is now seeking the support of School men for the position of secretary of the Engineering Society. During the past year, three successful parties have been run off smoothly under his careful supervision, and a substantial balance retained to carry forward into the following year. Prior to entering University, "Whitey" had been active in a variety of interests, and the experience gained since entering this faculty should be of use in any position of responsibility. On many occasions he has proved himself a careful and capable leader, and his record for the past year speaks well for his ability in the future.

### FEATURE WRITER RUNS FOR PRESIDENT OF 2nd YEAR

Much of the publicity for S.P.S. that has reached the columns of the "Varsity," has been put there by the efforts of Ken. G. Robb, a feature writer for the paper, who is running for the office of President of the second year. Having covered all the major engineering events of the year for the paper, "Ken. G." has been closely connected with the activities of the Engineering Society, and has been loyal in his support of the faculty on the pages of the Press. Writing for the Toike Oike has been one of his activities, and his splendid spirit of co-operation in connection with the publicity of School Dinner, School Night, School At-Home, and various year parties, as well as the little everyday incidents that happen so often around S.P.S., has put the faculty conspicuously on the map during the past season. During collegiate days he was cheer leader at Riverdale, and prominent in other school activities. Since entering S.P.S. he has gained many friends in his connections with the Blue and White Band, the "A" certificate men of the C.O.T.C., the "Varsity," and other university activities, and his cheerful and active spirit, combined with a wealth of executive ability should fit him for the position of president of 3T6. For the past two years he has held the position of president of a large Young People's organization in the city, and has had considerable experience in executive and organization work.

### SCHOOL AT-HOME 1933

In spite of the decreased attendance this year, the At-Home maintained its usual standard of excellence due to the support given by the few who attended.

Music of a tantalizing nature was provided by the Wright Brothers' Orchestra, and the midnight rendezvous in the Convention Hall provided food for both stomachs and thought.

The ladies were particularly attractive and every gentleman present justifiably thought that his particular sweetheart was without parallel. In turn, the ladies could be justly proud of their swains who for the evening got away from the rather dull side of their scholastic life, and blossomed forth in a real engineering project.

Just as we do in our every-day work, we tackle this social problem sanely, weighing all the factors, and it is with no little pride that we look back upon our accomplishment.

Congratulations, gentlemen! Make it bigger and better next year.

THE FIRST NAME ON THE BALLOT

#### AN APPRECIATION

We like Art LePan. He is competent, has sound judgment and the knack of being able to work with others. Art is always willing to stop and chat; it is for this and his ability to mix that we like him most. These are qualities that would make the genial Art LePan an efficient and well liked Secretary of the Engineering Society.

His  $3T_6$  Friends.

(If you don't know the best when you see it, don't look at the top of Page 7.)

(Continued from Page 2)

of the Hart House Library Committee for the past year and has been re-elected by his fellow members to serve in that capacity for another year.

The position of First Vice-President of the Engineering Society is indeed a busy one as it controls all social functions at S.P.S. Stan Smith certainly has had plenty of proper training in the modern methods of making a party a real success. You are assured that he will produce the “maximum of pleasure at a minimum of cost,” and that the spotlights will play on smarter School parties.

(Continued from Page 1)

He is one who can give the necessary time and enthusiasm to the position, and who may be depended upon to look after the interests of all Schoolmen, whether they be Freshmen, Seniors or Graduates.

## IMPORTANT ADVICE FOR VOTERS

### HARE SPENCE SYSTEM OF VOTING

Each member of the Engineering Society shall go to the polling station for his year, where he shall receive the proper ballots from the Returning Officer and have his name checked off by the scrutineer. After marking his ballots carefully he shall return it to the Returning Officer who shall deposit it in the ballot box.

The Hare-Spence Ssystem of voting is used. In this system of counting the voter marks opposite the name of the candidate for whom he wishes to vote, the figure 1, while opposite his second choice for office he marks the figure 2, and opposite his third choice the figure 3, and so on. It is essential that the voter marks a figure beside every candidate's name or the ballot will not be valid.

When the number of "first choices" are added the candidate with the lowest number goes out and his "second choices" are distributed amongst the other candidates, counting as firsts. This method of elimination is followed until only two candidates are left and the one with the largest number of votes is declared elected.

### WHY STUDY?

The more you study,  
The more you know;

So why study?

Select candidates who will earnestly endeavour to further the interests of the Engineering Society!

### POLLING STATIONS In Engineering Building

First Year—Top Floor.  
Second Year—Second Floor.  
Third Year—Main Floor.  
Fourth Year—Main Floor.

### ENTERTAINMENT

At noon to-day when the various lecture rooms and labs. open their doors, a happy throng will pour out into the streets. They will quit their usual eating dives and make for Hart House, where they will assemble 800 strong in the East Common Room. Here, songs, jokes and entertainment will abound whilst men of other faculties will make themselves rather scarce.

After a session of Hart House soup, etc., in the Great Hall, and some more revelry in the Common Rooms, the merry mob will head for the exits. Then the annual snake dance and parade back to the "Revered Red School House" for the benefit of the other lesser faculties.

After a few puffs on some office aspirant's cigar, or a mouthful of some candidate's candy, midst the clamor and din of the spirited last-minute campaigning, comes the time to vote. We pause to give the boys an opportunity to choose their selection of officers wisely, before exercising their franchise.

Soon downtown Toronto is also "School conscious" as the doors of our leading theatres swallow up the maddening crowd of hardy engineers.

Meanwhile the returning officers and the scrutineers are earnestly counting the thousands of ballots behind the closed doors of the Engineering Society.

But all is not told as yet. At 7.30 there will be another gathering in Hart House. In the big gymnasium, famous boxers, and grunting wrestlers will gall each other as did the gladiators of yore. For the meeker souls ancient films will be projected on a screen in the Common Room. Tiring of this, everyone will flock into the Great Hall where the final election returns will

be flashed on a screen. After the demolition of the sandwiches and ice cream has been completed and with the four-score walls of Hart House resounding with lusty "Toronto" and "Toike Oike" another School Election will pass into history.

### ELECTION DAY

Once again the elections are here—a time when Schoolmen break away for a short recess from the drudgery of acquiring the knowledge of our great and proud profession, and indulge in a brief but delicious debauchery which marks the shaping away for that final grind. It is a day of enthusiastic electioneering and careful choosing, of congratulations and condolences, of laughter and cheers.

This is the day of no mere class party or similar School function—this is the day of School Elections. This is the one day above all others when the entire University of Toronto is made "School Conscious" and the whole campus belongs to us.

### HART HOUSE ELECTIONS

Gentlemen, in the hustle and bustle of our School Elections do not forget that next Wednesday the Annual Elections for the members of the Hart House Committees takes place.

This year the voting hours have been reduced greatly and you may cast your ballot from 12.15 to 2.00 and from 5.00 to 6.00 in the afternoon.

There are a number of very good candidates from S.P.S. standing for election for the various committees and it is your duty to exercise your franchise and assist in upholding the high standards of Hart House by ensuring that the full quota of Schoolmen sit on the committees.

Vote for a man because he is fitted for the job not because he is liberal with his bribes!

It is your duty to vote and to vote wisely!

## GRADUATION DANCE: ROYAL YORK HOTEL

### FRIDAY, MARCH 10
